

Implementing Quarantine

If quarantine is required:

- Recommend the person to self isolate at home or refer the person to a healthcare facility/alternate care site and communicate the quarantine recommendation to the Infection Preventionists.

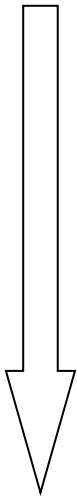

- Provide self quarantine order, evaluate conditions and discuss compliance requirements/expectations:
- Provide information about their incubation period and what symptoms to watch for.
- Determine needs of the individual and provide necessary information/services.

Cooperative/
Compliant

Uncooperative/
Noncompliant

- Follow the process for coordinating and communicating with legal counsel.
- Receive court order for quarantine
- Contact law enforcement if warranted.

- Follow up as needed.
- Visit with proper personal protective equipment.
- Reassess compliance.
- Release them from quarantine when appropriate

If person is in a healthcare facility/alternate care site – proper infection control measures have to be implemented as recommended by the infection preventionists.
